

Clinical Care Meeting

June 3-5, 2022 • Boston, MA

This meeting is an opportunity for health care professionals serving the Spina Bifida community to network, partner, and collaborate. Attendees learn about the work of SBA's Collaborative Care Network, the Guidelines for the Care of People with Spina Bifida, the National Spina Bifida Patient Registry, the latest in research, clinical care best practices, and much more. In 2022, we will be partnering with Boston Children's Hospital to host this third annual event.
